Bidet Fitting Instructions

Important Information:

Please check the products for transport damage and that contents are complete before installation.

Consult a qualified plumber if you have any problems installing this product.

Complaints made following installation regarding the above cannot be accepted.

Bidet Fitting Instructions

Please read this document prior to installation of your product.

Upon receiving your product please open all cartons carefully and inspect for any manufacturing defects.

This installation guide and the fixings provided are intended for fixing into a solid floor. If you are installing this product into a non solid floor please amend your installation techniques and fixings accordingly.

Tools required for installation

Hand Held Drill

Safety Goggles

Spirit Level

Tape Measure

Pencil

Adjustable
wrench

PTFE Tape

Silicon Gun

1. Carefully measure and plumb in all necessary pipework prior to installing the bidet. Ensure that you have a clear space within which to work.
2. Following the correct procedures for the type of waste you are fitting please install the bidet waste.
3. Position the bidet in the desired location. Ensure all surfaces are level and that the foot sits perpendicular to the wall.

⚠ CAUTION: Before undertaking any drilling check fully for hidden wires/pipework within the floor.

4. Mark the fixing points, remove the bidet and drill the marked points.

If you are fixing the pan to a floor other than a solid floor please use suitable fixings and adjust your installation method accordingly.

5. Re-position the bidet upto the wall, attach the waste pipe & tap. Plumb these items in according to the manufacturers instructions.

6. Once the bidet is plumbed in to the waste and mains water supply insert the fixing screws into the holes in the foot and tighten to secure the bidet to the floor.
7. Run the water a few times and check the tap and waste installations for leaks. If no leaks are evident your bidet installation is now complete.

For further questions or help please contact your retailer.

Care & Maintenance

Ceramic

The glazed finish of your sanitary ware should be cleaned after use by applying a little cream type cleaner. Apply using a sponge or damp cloth and rinse thoroughly with clean water. Cleaners containing abrasive materials should be avoided.

Metal

Parts with Chrome/Gold finish should be cleaned with a damp soft cloth only. The use of detergents and abrasive cleaning agents should be avoided as these will cause damage to the finish of the metal.
