

IMPERIAL

Wall hung pan / wall hung bidet

Important Information:

Please check the products for transport damage and that contents are complete before installation.

Consult a qualified plumber if you have any problems installing this product.

Complaints made following installation regarding the above cannot be accepted.

Thank you for purchasing this Imperial product.
 These instructions relate to our wall hung WC pans and wall hung bidets.
 Before you start check you have the necessary tools for installation.

Before you begin:

**⚠ Always handle our products with care and attention.
 Ceramic products are brittle, and may chip, crack or break if not handled carefully. Broken ceramic is extremely sharp.**

Take care not to over tighten screws and fittings. Over tightening may lead to breaks or chips in the ceramic.
 Before installing the product, please inspect for damage incurred during transport. Imperial can not take responsibility for damaged products after or during their installation.

We recommend that the guidance of a qualified plumber is sought throughout the installation process.
 Always observe the plumbing and building regulations in the area the product is being installed in.
 Imperial reserves the right to amend the design of its products without notice, as specified in the company catalogue.

The following tools are necessary for the installation of this product.
 Imperial would once again recommend that a qualified plumber carry out the installation of this product.

Spanner

Silicone Sealant

Drill

Safety Glasses

Pencil

Spirit Level

Basin Bolts Kit

PTFE Tape

Installing Wall hung pan

- ⚠ Carefully measure and install all necessary pipework prior to installing the toilet. Ensure that you have a clear space within which to work. Install concealed cistern frame. Please use suitable fixings for your wall type. Offer up the Wall hung WC pan ensuring that the protruding bolts pass clearly through the fitting holes. Connect the pan to water inlet and waste outlet. Secure the toilet pan to the wall by tightening securing nuts. Once you are satisfied that the pan has been installed correctly and the fixings are adequately tightened turn on the water supply and once the cistern is filled operate the flush cycle.
- ⚠ Operate the flush cycle a few times and continually check carefully for signs of leaks from the inlet valve or toilet outlet if no leaks are evident, your toilet installation is complete.

Care and Cleaning instruction**Looking After Your Toilet**

The glazed finish on your sanitaryware should be cleaned after use by applying a little cream type cleaner. Apply using a sponge or damp cloth and rinse thoroughly with clean water. Cleaners containing abrasive materials should be avoided.

Bathroom vanity furniture can be wiped over with a damp cloth and dried with a soft duster. The use of polish containing silicone or any abrasive materials can damage the wood finishes. Natural wax polishes should be used sparingly.

Guarantees (UK & Ireland)
